

Custom user interface

Developed and fully supported by Brother, custom user interface (UI) allows the touchscreen control panel to be personalised to the requirements of the customer.

Features

- Add branding and logos
- Edit visual layouts
- Create bespoke workflows
- Meet unique regulatory requirements
- Deploy a unified UI across multiple devices
- Deliver scalable customisation
- Backgrounds and branding can be added
- Icons can be added or removed

This solution provides the ability to edit and create customised workflows that are unique to your customers' business, streamlining workflow with one touch scanning to network folders.

By utilising a standalone editor tool to create bespoke UI design and workflow for seamless integration within a business can now be achieved with ease.

Available on selected Brother solutions-enabled devices:
